## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 12-7-2007 has been entered.

### ***Allowable Subject Matter***

2. Claims 1,5,6,9,11,12,14-17,19,20,41,42 are allowed.
3. The following is an examiner's statement of reasons for allowance: Examiner considers the Chou reference cited on the IDS dated 12-7-2007 to be the closest prior art that was not addressed previously. Chou is similar to the applicants' invention but does not disclose a second transport mechanism as claimed. In Chou valves or gates are opened and closed to dictate flow directions where applicants' claim requires the ability to apply transient pressure pulses on the fluid. Chou fails to disclose this limitation and the prior art does not anticipate or render obvious the combination of elements and their arrangement as set forth in independent claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3653

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
